START HERE

Welcome to SK Voyage Driver

This handbook walks you through every screen in the SK Voyage Driver app — the companion app you use to receive trips, drive, chat with passengers, manage your vehicle documents, and withdraw your earnings. Whether you're a brand-new applicant waiting on approval, or an active driver on the road every day, you can jump to any section from the menu on the left, or read it start to finish.

One app, start to finish

You'll use the same app from the day you sign up, through document approval, your first trip, and every withdrawal after that. Nothing to switch between — everything lives under the four tabs at the bottom of the screen once you're approved.

What the app does

SK Voyage Driver connects you to the SK Voyage / SkTravels trip platform. It's built around four everyday jobs:

Trips

See incoming trip requests, accept them, navigate the route, and mark each ride complete.

Earnings

Track what you've earned, set up how you get paid, and withdraw money to your bank or UPI.

Vehicles & documents

Upload your licence and vehicle papers, and keep every vehicle you drive verified and active.

Support

Chat with passengers, contact your supervisor, report a problem, or reach the help desk.

What you can do

The app behaves a little differently depending on where you are in the approval process.

APPLICANT

New driver, still onboarding

You can fill in your profile and upload documents. You'll see a banner reminding you to finish onboarding, and you can't go online or accept trips until your documents are approved.

ACTIVE DRIVER

Fully approved

You have full access — go online, accept and drive trips, chat with passengers, view earnings, and withdraw money whenever you have an available balance.

Vendors and supervisors. You drive under a vendor on the SK Voyage platform. Your supervisor's contact details appear on every trip so you can call them directly if you need help on the road.

04

BASICS

Signing in

Signing in only needs your mobile number — there's no password to remember.

1

Tap "Continue with number"

On the welcome screen, start the sign-in process.

2

Enter your 10-digit mobile number

The same number your vendor registered for you.

3

Enter the OTP (one-time code) sent to your phone

If it doesn't arrive within 60 seconds, tap "Resend."

4

New number? Tell us your name

If this is your first time, you'll be asked for your full name and (optional) email, then guided straight into onboarding.

What happens next depends on you

If you're already an approved driver, entering the OTP takes you straight to your Home dashboard. If your number isn't recognised yet, you'll land on the New Driver Guide, which explains the three things you need to do before you can drive: complete your profile, upload your documents, and wait for approval.

←

OTP Verification

Enter the 4-digit code sent to your phone number

Enter 4-Digit Code

Demo OTP: 3265

Didn't receive code? Resend in 0:55

Verify & Continue

05

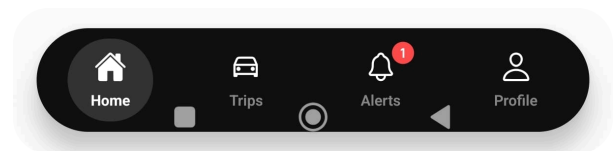

BASICS

Getting around

Once you're approved, four tabs sit at the bottom of every screen.

- **Home** — your dashboard: go online, see your next trip, quick actions.
- **Trips** — every trip that's available, requested, upcoming, or in progress.
- **Alerts** — your notifications, with a small badge when something's unread.
- **Profile** — your details, vehicles, documents, earnings and settings.

A floating banner can appear above the tabs at any time — a pulsing "Trip Request Incoming!" banner when a new trip needs your response, or a reminder banner if your profile still needs finishing.

Don't want to lose a trip request? When the "Trip Request Incoming!" banner appears, tap **View** straight away — trip requests can expire if you wait too long.

The app uses the same colours everywhere, so once you learn what they mean here, you'll recognise them on every screen.

COLOUR	MEANING	WHERE YOU'LL SEE IT
 GREEN	Good — approved, completed, verified, available money	Trip status, document status, withdrawal status
 AMBER	In progress — pending review, waiting, processing	Document review, withdrawal processing, trip requests
 RED	Needs attention — rejected, failed, cancelled, urgent	Document rejections, failed withdrawals, SOS
 BLUE / NAVY	Information — general status, neutral notices	System messages, info banners
 GREY	Inactive — not submitted, cancelled, not applicable	Unstarted documents, cancelled trips

Gold/yellow is used a little differently — it's the app's brand colour, so you'll see it on buttons, the "Online" toggle, and highlighted cards rather than as a status colour.

GETTING APPROVED

Completing your profile

Before you can drive, we need your personal, address, licence and vehicle details. You can find this from Profile → "Complete Your Profile," or you'll be sent here automatically as a new applicant.

Fill in Personal Info

Your name, date of birth and contact details.

2

Add your Current & Permanent Address

Both are required, even if they're the same.

3

Enter Licence & Employment details

Your driving licence number and work information.

4

Add an Emergency Contact

Someone we can reach if there's ever an urgent situation.

5

Add your Vehicle Information

Basic details for the vehicle you'll be driving.

6

Save Progress or Submit for Review

Not ready to finish? Tap "Save Progress" and come back later. Ready? Tap "Submit for Review."

Submitting locks your profile as "Pending." Once you tap Submit for Review, your profile moves to Pending status while our team checks it. Use Save Progress if you're still filling things in.

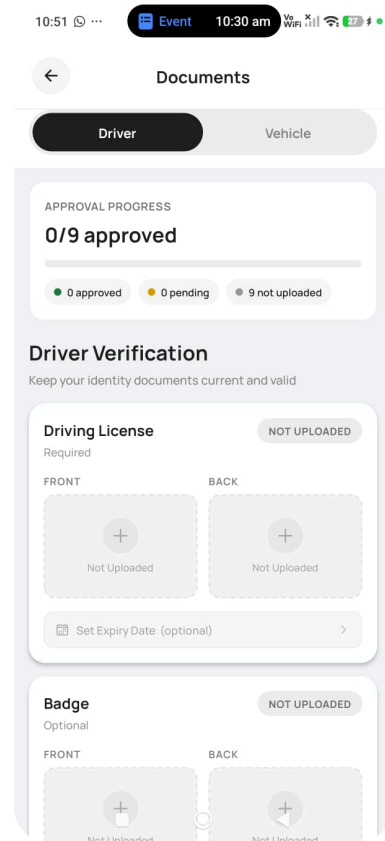

08

GETTING APPROVED

Uploading your documents

Your documents are split across two tabs — **Driver** (your licence, ID, etc.) and **Vehicle** (registration, insurance, and so on).

- Tap a document card, then choose **Choose Source** to take a photo or pick a file.
- Upload both the front and back of each document.
- Each card shows a status badge — **NOT UPLOADED**, **PENDING REVIEW**, **APPROVED**, or **REJECTED**.
- If a document is rejected, a note explains why — tap "Re-upload" to try again.
- A progress card at the top tracks how many documents are approved, pending, or still missing.

Once every document is submitted, the button at the bottom changes from "Upload all documents to submit (x/y)" to **Submit for Review**. After that, a banner shows your overall application status.

Typical turnaround is 1–2 business days. You'll get a notification the moment a document is approved or needs another look.

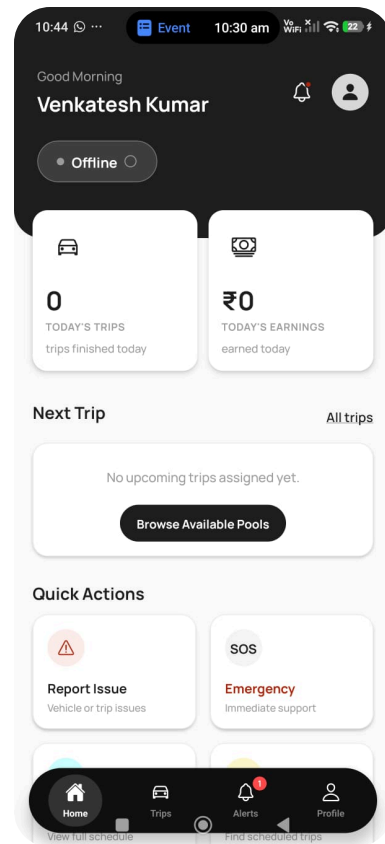

TRIPS

Home dashboard

Home is where your day starts. It's the first tab, and the one place you'll check most often.

- Tap the big **Online / Offline** toggle at the top to start (or stop) receiving trips.
- See today's trip count and today's earnings at a glance.
- Browse **Instant Trips** — trips available right now nearby.
- Your **Next Trip** card shows the route, stops, your supervisor's number, and a Navigate button.
- **Quick Actions** give you one-tap access to Report Issue, Emergency SOS, My Trips and Available Pools.

Can't go online? You need approved documents first. Check the Documents screen for anything still pending or rejected.

TRIPS

Accepting trip requests

The Trips tab organises every trip into five lists: **Active**, **Available**, **Requested**, **Upcoming**, and **Platform Bookings**. Use the search bar or date filter to narrow things down.

1

Watch for the incoming trip banner

When a trip comes in, tap **View** to see it, or **Skip** to pass.

2

Or browse "Available"

Tap **Request Trip** on any trip that suits you.

3

Wait in "Requested"

Your request is being matched. You can tap **Cancel Request** if you change your mind.

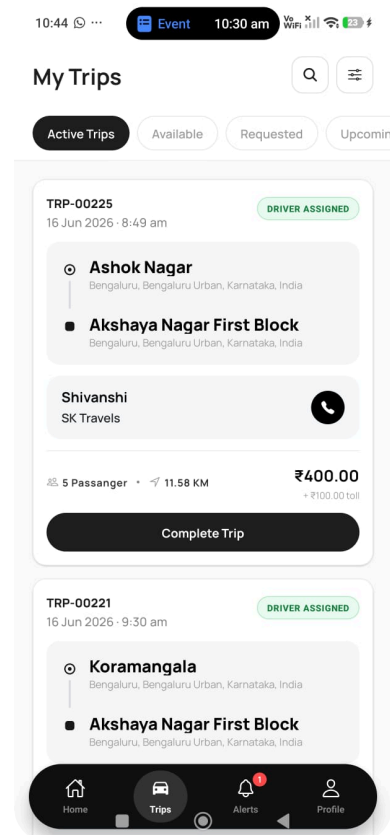

4

Find it in "Upcoming" once confirmed

Tap **Navigate** to head toward pickup when it's time.

Every trip card shows the essentials

A status pill, the pickup-to-drop route (with any stops you can expand), an escort chip if one is assigned, and the fare plus toll. Platform Bookings additionally split into outbound and return legs.

See the Status guide for what each trip-status colour means.

11

TRIPS

On the road

Once a trip starts, a full-screen live map guides you the whole way — your car icon moves with you, and a badge at the top always shows the current phase.

1

Drive to pickup

The badge reads "Go to Pickup." Tap "Open in Google Maps" if you'd rather navigate there.

2

Tap "I've Arrived at Pickup"

Once you're there, confirm your arrival.

3

Onboard your passenger

Enter the 4-digit code your passenger gives you to confirm you have the right rider.

4

Work through any stops

The badge counts them off — "Go to Stop 1 of 2," and so on.

5

Tap "I've Arrived at Drop"

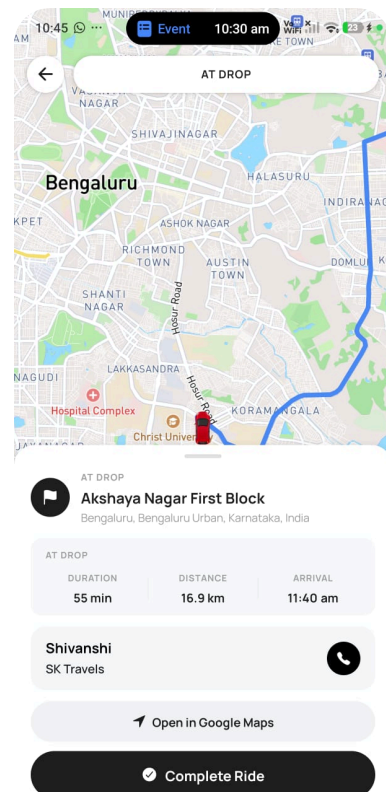

If an escort return is required, you'll be asked to start the return leg next.

6

Complete the ride

Confirm the finish — some trips ask for a completion code from your supervisor first.

A bottom sheet always shows your distance and ETA to the current target, plus a one-tap call button to your supervisor if anything comes up.

Don't skip the onboarding code. It confirms you've picked up the right passenger — always ask for it before you start driving.

12

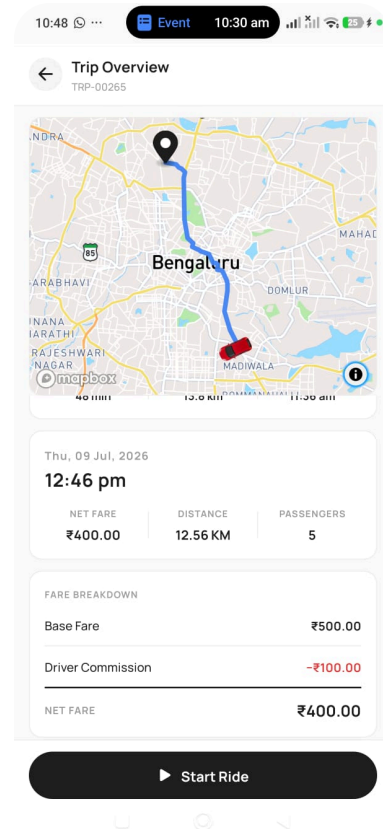

TRIPS

Trip details & fare

Tap into any trip to see the full picture before or during the ride.

- A live map with your route and ETA to pickup.
- A fare breakdown — base fare, escort charge, commission, toll, and your total payout.
- The full route with every stop, plus any notes your supervisor added.
- A supervisor contact card with a one-tap call button.

The button at the bottom changes with the trip's status: **Accept Trip**, **Start Ride**, or **Open Ride Map**.

Looking for trips available right now nearby? Check **Instant Trips** on your Home dashboard — tap "View Trip" to open the same details screen.

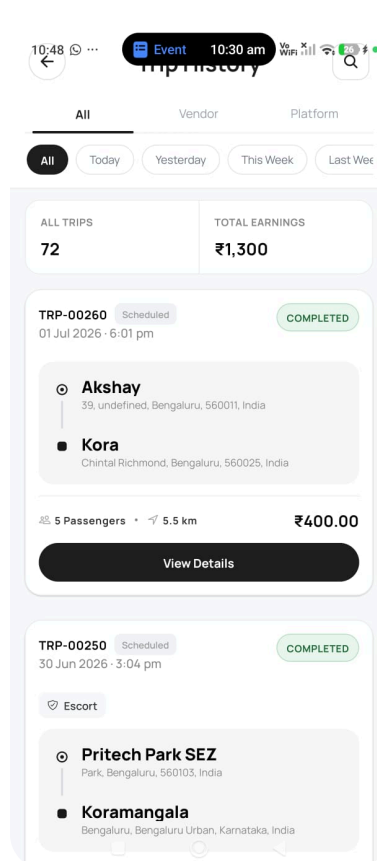

TRIPS

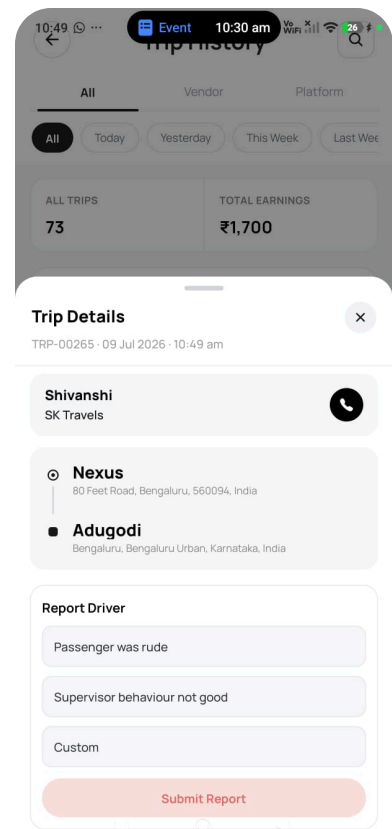

Trip history

Every completed or cancelled trip lives here, filterable by Vendor / Platform / All, and by time period (today, this week, this month, or a custom range).

- A summary card totals your trip count and earnings for the period you picked.
- Tap any trip to see its full route, notes, fare breakdown and supervisor contact.
- Had a problem on a trip? Tap **Raise a Ticket**, pick a reason (or write your own), and submit it — you'll see the ticket's status and any reply right there afterward.

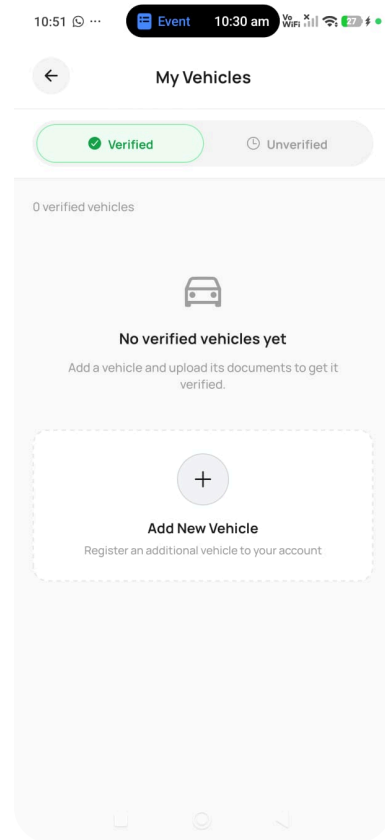

The filterable list with its totals summary.

Tap a trip for its detail sheet and the Raise a Ticket reasons.

Reach this from Profile → "My Vehicles." Two tabs split your vehicles into **Verified** and **Unverified**.

- On a verified vehicle, tap **Set as Active** to drive with it.
- An unverified vehicle shows a **VERIFICATION PENDING** badge — tap **Upload Documents to Verify** to submit its papers.
- Tap **Add New Vehicle** to register another one (make, model, year, plate, colour and type) — it'll need its own documents before you can use it.

Unverified vehicles can't be made active. A new or unverified vehicle needs its documents approved before you can drive with it.

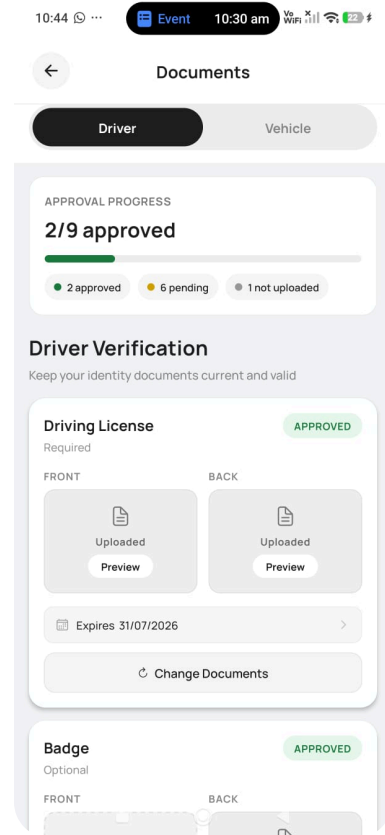

VEHICLES & DOCUMENTS

Documents

This is where you manage documents after onboarding — re-uploading an expired paper, or verifying a new vehicle.

- Each document has front and back upload slots, an expiry date field, and a status badge — **NOT UPLOADED**, **PENDING**, **APPROVED**, or **REJECTED** (with the reason shown).
- Update the expiry date, then tap **Submit** on that card.
- Verifying a specific vehicle? You'll see a "Verifying: [vehicle]" notice — upload its documents and tap **Submit for Verification**. You'll get a "Vehicle Verified!" confirmation once approved, and be taken back to My Vehicles.

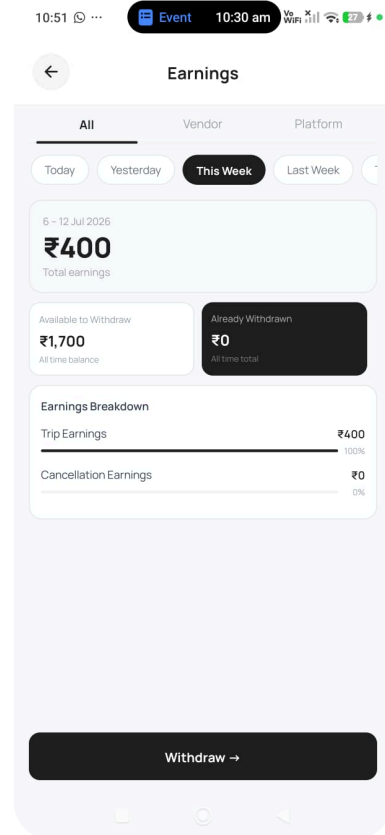

16

MONEY

Earnings

Reach this from Profile → "Earnings & Payments." Filter by source (All / Vendor / Platform) and by date range.

- A hero card totals your earnings for the selected range.
- Two wallet cards show what's **Available to Withdraw** and what you've **Already Withdrawn**.
- An Earnings Breakdown compares Trip Earnings against Cancellation Earnings.
- Tap **Withdraw** at the bottom whenever you have an available balance.

17

MONEY

Payout settings

Tell us where to send your money — a UPI ID or a bank account.

- Choose **UPI** or **Bank Account**, then fill in your beneficiary name and the relevant details.
- For a bank account, you'll enter the account number twice to confirm it, plus the IFSC code and account type.
- Your account status shows as **VERIFIED**, **NEEDS REVIEW**, or **PENDING**.

✓ We never ask for card number, CVV, PIN, netbanking password, or OTP for payouts.

Save Payout Account

We never ask for your card number, CVV, PIN, net-banking password, or an OTP to set up a payout method. If anyone contacts you asking for these, don't share them — report it through Help & Support.

18

MONEY

Withdrawing money

Withdrawing takes four short steps from start to finish.

1

Choose a date range

Use a quick filter (Last 7 Days, Last 15 Days, This Month) or pick a custom range. An "Eligible Earnings" card shows what you can withdraw for that period.

2

Confirm the amount

Review the summary — amount, processing fee (₹0), and what you'll receive — then tap **Confirm Withdrawal**.

3

See your success screen

A reference ID and estimated settlement date are generated automatically.

4

Track it in Withdrawal History

Filter by All / Done / Pending / Failed at any time.

STATUS	MEANING
COMPLETED	Money has been sent to your account
PROCESSING	On its way — usually 1–2 working days
FAILED	The transfer didn't go through — check your payout details
REVERSED	A completed withdrawal was sent back
CANCELLED	The withdrawal request was cancelled

Only completed trips within your chosen date range count toward a withdrawal. Settlement typically takes 1–2 working days after you confirm.

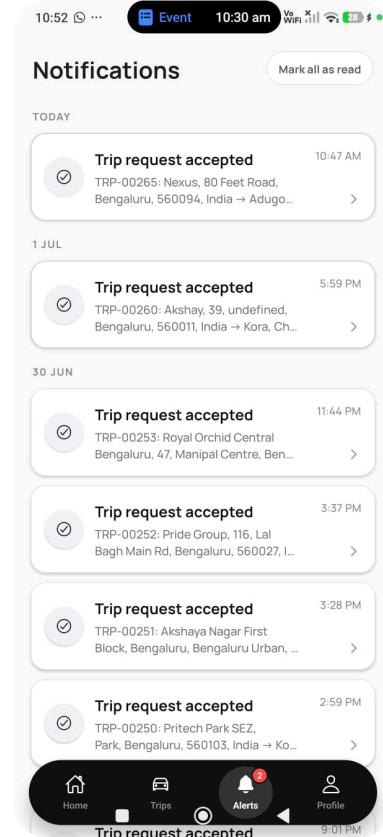

19

STAYING INFORMED

Notifications

The Alerts tab groups everything by date — Today, Yesterday, Earlier.

- Unread notifications show a small coloured dot.
- Tap **Mark all as read** to clear them at once.
- Anything urgent — a rejection, cancellation, failure, or traffic warning — is flagged in red so it stands out.
- Tapping a "trip accepted" alert jumps you straight to Trips → Upcoming.

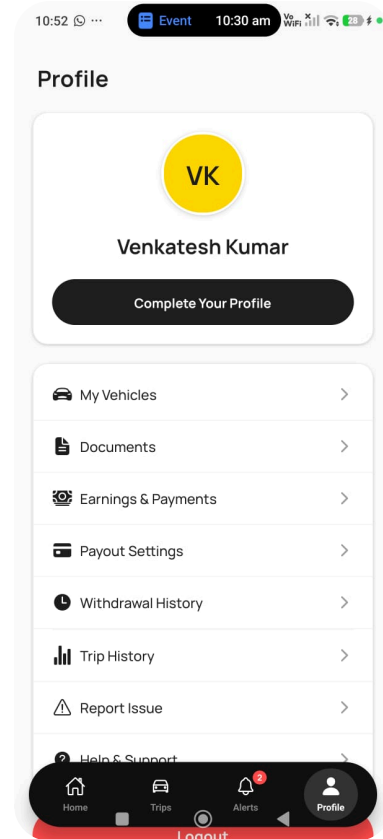

STAYING INFORMED

Your profile

Profile is your home base for everything about your account.

- Tap your name or photo to edit them directly.
- The menu links to My Vehicles, Documents, Earnings & Payments, Payout Settings, Withdrawal History, Trip History, Report Issue, and Help & Support.
- Tap **Logout** at the bottom to sign out — you'll be asked to confirm first.

21

SUPPORT

Reporting an issue & Emergency SOS

Something wrong with a trip, your vehicle, or a payment? Report it in under a minute.

- Pick a category — Vehicle Problem, Trip Issue, Payment Issue, Passenger Complaint, App Bug, or Other.
- Add the trip reference if it's related to a specific ride (optional).
- Write a short description (up to 500 characters) and tap **Submit**.
- You'll get a confirmation with a ticket reference number.

Emergency SOS. The SOS button on your Home dashboard's Quick Actions sends your location and an alert straight to your supervisor and support team. Use it only for genuine emergencies.

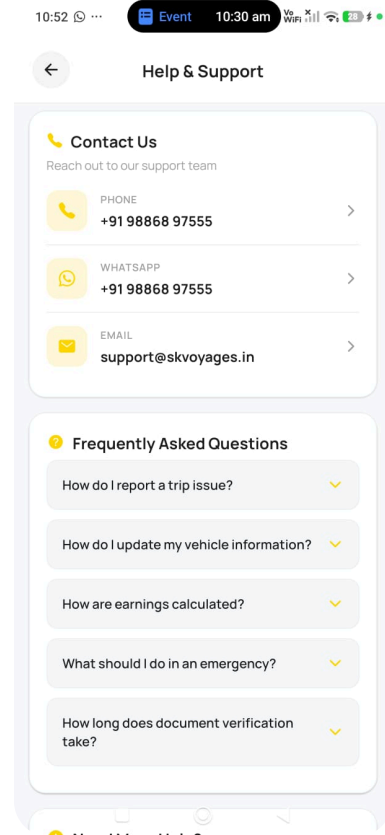

SUPPORT

Help & Support

Reach the support team however's easiest for you.

- Tap **Phone**, **WhatsApp**, or **Email** to contact us directly — each opens straight into your phone's own app.
- Browse the FAQ list for quick answers before reaching out.
- A "Need More Help?" box shows our support hours (24/7).

23

REFERENCE

Status guide

A quick lookup for every status badge you'll see across the app.

Trip status

STATUS	MEANING
AWAITING DRIVER	Trip is posted and waiting for a driver to accept it
DRIVER ASSIGNED	You've been matched — it will appear under Upcoming
ONGOING	The trip is currently in progress
COMPLETED	The trip finished successfully
CANCELLED	The trip was cancelled by you, the passenger, or the platform

Document status

STATUS	MEANING
NOT UPLOADED	Nothing submitted yet
PENDING REVIEW	Submitted and waiting on our team
APPROVED	Verified and good to go
REJECTED	Needs a re-upload — check the note on the card for why

Payout account status

STATUS	MEANING
VERIFIED	Your payout account is confirmed and ready
PENDING	Still being checked
NEEDS REVIEW	Something didn't match — double-check your details

Messages you might see

Common in-app messages, what they mean, and what to do next.

MESSAGE	WHAT IT MEANS	WHAT TO DO
STATUS UPDATE FAILED	Going online/offline didn't save	Check your connection and try again
SOS SENT	Your emergency alert reached your supervisor/support	Stay safe — help is on the way
SOS FAILED	The alert didn't go through	Try again, or call your supervisor directly
REQUEST SENT...	Your trip request was submitted	Watch the Requested tab for a match
VEHICLE VERIFIED!	A vehicle passed document review	You can now set it as your active vehicle
WITHDRAWAL FAILED	The withdrawal didn't process	Check your payout settings and try again
REPORT SUBMITTED	Your issue report was received	Note the ticket reference for follow-up
DEMO OTP: 3265	Shown only in the app's test/demo mode	Enter it as shown — it won't appear for real accounts

Frequently asked questions

How do I report a problem with a trip?

How do I update my vehicle information?

How are my earnings calculated?

What does the Emergency SOS button do?

How long does document verification take?

26

REFERENCE

Troubleshooting

PROBLEM	LIKELY CAUSE	TRY THIS
Can't go online	Your documents aren't fully approved yet	Check Documents for anything pending or rejected
OTP never arrives	Weak signal or a delayed SMS	Check signal, wait for the 60-second timer, then tap Resend
Withdraw button is disabled	Your available balance is ₹0	Complete more trips, or check your selected date range in Earnings
A vehicle can't be set active	It's still Unverified	Upload its documents from My Vehicles and wait for approval
Missed a trip request	The incoming banner timed out	Check the Available tab — similar trips are usually posted again quickly
Payout account shows "Needs Review"	Details didn't match (e.g. account number mismatch)	Re-enter your payout details carefully in Payout Settings

REFERENCE

Glossary

Applicant

A driver who has signed up but isn't fully approved yet.

Active driver

A fully approved driver who can go online and accept trips.

Vendor

The company or fleet you drive under on the SK Voyage platform.

Supervisor

Your point of contact for a trip or vendor — reachable by call from most trip screens.

Escort

An additional attendant assigned to a trip, shown as a chip on the trip card.

Instant Trip

A trip available to accept right now, shown on your Home dashboard.

Platform Booking

A trip booked directly through the SK Voyage platform, often with separate outbound and return legs.

OTP

One-Time Password — a short code used to verify sign-in or to confirm a passenger pickup.

Payout

The method (UPI or bank account) you've set up to receive withdrawn earnings.

Settlement

The point at which a withdrawal actually lands in your account, typically 1–2 working days after you confirm it.

Ticket

A support request raised from Trip History or Report Issue, tracked until it's resolved.

SOS

The emergency alert button that shares your location with your supervisor and support instantly.

This handbook describes the SK Voyage Driver app as of Version 1.0. Screens, wording and features may change as the app is updated — always follow the in-app instructions if anything here looks different from what you see on your device.
