

SK Voyages Super Admin Dashboard

A friendly guide for operations and admin teams who monitor vendors, drivers, trips, enquiries, invoices, support issues, and platform settings.

Use this manual when you need to know where to look, what to tap, and what each screen is for.

AUDIENCE: SUPER ADMINS

PLATFORM: WEB DASHBOARD

READING TIME: 30 MINUTES

START HERE

Welcome

The Super Admin Dashboard is the central place for the SK Voyages operations team. It shows platform money flow, vendor and driver activity, live trips, onboarding, website enquiries, invoices, reports, tickets, cancellations, SOS alerts, and settings.

Good to know Superadmin team members may see fewer menu items depending on their permissions. Full super admins can see all platform areas.

START HERE

What the dashboard does

Monitors the whole platform

View vendor spend, driver earnings, hold amount, trips, wallet balances, and low-balance vendors.

Controls supply and demand

Review vendors, drivers, onboarding records, website enquiries, special enquiries, and custom trips.

Supports quick response

Use Live Map, Tickets, Cancellations, and SOS to handle urgent operating issues.

START HERE

What you can do

ROLE	TYPICAL ACCESS	USE IT FOR
Super Admin	All admin areas, user management, and platform settings.	Operate the platform, manage team access, configure rules, and oversee finance.
Superadmin Team Member	Only assigned modules such as vendors, drivers, reports, or trip monitoring.	Handle a focused area of work without seeing unrelated settings.
Operations Reviewer	Monitoring screens and review queues.	Check enquiries, onboarding, cancellations, tickets, and SOS items.

BASICS

Signing in

Open your admin workspace

The sign-in screen is for secure access to the superadmin area. Use the credentials assigned to your admin account.

- 1 Open the SK Voyages admin dashboard link.
- 2 Enter your email or mobile number and password.
- 3 Tap **Sign in**.
- 4 If you cannot enter, ask a full super admin to check your account status.

The admin sign-in page.

BASICS

Getting around

Use the sidebar as your map

The sidebar groups platform areas. Some menu items expand, such as Super Dashboard, Website Enquiry, and Reports.

- Tap **Super Dashboard** for Dashboard or Finance Dashboard.
- Tap **Website Enquiry** for Booking Enquiry, Special Enquiry, or Custom Trip.
- Tap **Reports** for Vendor Report or Driver Report.

06

BASICS

Reading the screens

Admin screens use KPI cards for totals, charts for comparison, tables for details, filters for finding records, and status badges for quick scanning.

VERIFIED approved, active, completed, or available.

ON TRIP active, assigned, or in progress.

PENDING waiting for review, payment, or action.

REJECTED cancelled, failed, or not approved.

OFFLINE inactive, unavailable, or not submitted.

07

CORE AREAS

Dashboard

Start with money flow and activity

The main Dashboard shows vendor spend, driver earned amount, hold amount, trips, vendor recharge, driver withdrawals, platform wallet, profit, low-balance vendors, charts, and leaderboards.

- Tap quick ranges such as **Today**, **Yesterday**, **Last 7 Days**, or **Last 30 Days**.
- Tap **Refresh** to load the latest numbers.
- Tap **Low Balance Vendors** to open the low-balance list.

The Dashboard: money-flow KPIs across all vendors and drivers, with per-vendor and per-driver charts.

08

CORE AREAS

Finance Dashboard

Review platform finance in detail

The Finance Dashboard is for deeper money review across bookings, fare, passengers, scheduled date, created date, and finance categories.

- Use date filters before reading totals.
- Check booking rows for customer, route, vehicle type, passengers, fare, created date, and scheduled date.
- Use charts to compare categories and spot unusual movement.

Finance — Website Bookings: revenue, per-day analysis, and completed website bookings.

CORE AREAS

Vendors

Review and manage vendor accounts

The Vendors area lists verified and unverified vendors. It includes company info, documents, credentials, status, wallet details, and vendor profile pages.

1

Open **Vendors**.

2

Switch between **Verified** and **Unverified**.

3

Use search and status filters to narrow the list.

4

Tap a vendor row to open details or review documents.

The Vendors table, with verified/unverified tabs and an Onboard Vendor action.

!

Before approving Check company information and submitted documents carefully. Vendor approval affects access and billing.

10

CORE AREAS

Live Map

See drivers and trips in real time

Live Map is for operations monitoring. It helps you see driver location and status such as Available, On Trip, or Offline.

- Open **Live Map** during active operations.

- Look for drivers marked **Available** or **On Trip**.
- Use driver details to understand who is nearby or currently serving a trip.

Live Map: real-time vehicle tracking across all vendors, with a driver panel.

CORE AREAS

Drivers

Manage driver profiles and history

The Drivers screen is for searching, filtering, opening driver details, checking status, and reviewing profile, trips, documents, and wallet-related activity.

- Use status filters such as Available, On Trip, or Offline.
- Tap a driver to open the detail page.
- Review completed, cancelled, ongoing, or pending trip history where shown.

The screenshot shows the 'Drivers' section of the Travellink SuperDashboard. At the top, there are four KPI cards: 'TOTAL DRIVERS' (4), 'ON TRIP' (2), 'ONLINE' (3), and 'OFFLINE' (1). Below these is a search bar and a table of drivers. The table has columns for DRIVER, PHONE, VEHICLE, LAST ACTIVE, and JOINED ON. There are five drivers listed.

DRIVER	PHONE	VEHICLE	LAST ACTIVE	JOINED ON
Venkatesh Kumar drv-001	+91 91888 77665	KA 05 MN 4321 Innova Crysta SUV	27 Apr 26 12:17 pm	27 Apr 2026

The Drivers list with availability KPIs.

12

CORE AREAS

Driver Onboarding

Review driver applications

Driver Onboarding is for checking new driver submissions, documents, personal details, address details, and vehicle information before approval.

- 1 Open **Driver Onboarding**.
- 2 Tap a driver application.
- 3 Review personal details, address, vehicle, and uploaded documents.
- 4 Choose approve, reject, or keep pending based on the review.

Driver Onboarding: pending, in-review and rejected registrations awaiting review.

13

CORE AREAS

Website Enquiry

Turn incoming requests into trips

Website Enquiry includes Booking Enquiry, Special Enquiry, and Custom Trip. Booking records can move through Pending, Published, Driver Assigned, Active, and Completed.

- Tap **Booking Enquiry** for normal website booking requests.
- Tap **Special Enquiry** for custom customer requests.
- Tap **Custom Trip** to create or manage trips that need manual handling.
- Open a booking to publish, assign a driver, cancel assignment, or review details.

Booking Enquiry
Manage and track all website booking enquiries by status

Booking Enquiry, filtered by status across the enquiry lifecycle.

OK

Use the tabs The enquiry tabs show where each booking is in the journey. Start with Pending when looking for work that needs action.

14

CORE AREAS

Invoices

Track vendor billing

Invoices show total billed, collected amount, outstanding amount, and invoice rows. Statuses include Pending, Overdue, Paid, and Voided.

- Use filters to find invoices by vendor, status, or date.
- Tap an invoice row to view invoice details.
- Update pending or overdue invoices only when the payment state is confirmed.

Vendor Invoicing
Generate and manage invoices for vendors

TOTAL BILLED

INV-001	SK Travels Issued 25 May 2026 - 4 trips	18th May 2026 to 25th May 2026	₹29	Overdue	25 May 2026	24 Jun 2026

Vendor Invoicing: billed, collected and outstanding totals.

15

CORE AREAS

Reports

Compare vendor and driver performance

Reports are split into Vendor Report and Driver Report. Use them to review completed trips, spend, earnings, and period-based activity.

- Tap **Vendor Report** to compare vendors.
- Tap **Driver Report** to compare drivers.
- Set the date range before reading totals or exporting data.

Vendor Report: spend, trip volume and booking-type split for one vendor.

Driver Report: trips and earnings for one driver.

Review support tickets

Tickets collect trip and driver support issues. They are grouped as Pending Tickets and Resolved Tickets.

1

Open **Tickets**.

2

Choose Pending or Resolved.

3

Open a ticket to read driver, trip, note, and activity details.

4

Resolve or reopen only when the issue state is clear.

Tickets raised by vendors or the superadmin mobile app.

17

CORE AREAS

Cancellations

Decide cancellation responsibility

Cancellations show Pending Requests and Resolved Requests. Admin users can review details and record who was at fault: Supervisor, Driver, Both, or None.

- Open a pending request from the list.
- Read the trip, cancellation time, and notes.
- Select the fault party and add reviewer notes when resolving.

Cancellation requests awaiting review.

18

CORE AREAS

SOS

Handle urgent safety alerts

SOS is for urgent driver or trip alerts. Treat this screen as high priority and check each item quickly.

1

Open **SOS** when there is an alert.

2

Read driver, trip, time, location, and contact details.

3

Contact the right person using the provided details.

4

Mark or update the item only after the response is recorded.

SOS: emergency alerts triggered by drivers, new and acknowledged.

!

Urgent workflow SOS items should be handled before routine reports or finance review.

19

CORE AREAS

User Management

Manage admin team access

User Management is for full super admins. It lets you add admin team members, set role labels, assign module permissions, and deactivate users.

- Tap **User Management** from the sidebar.
- Add or edit a team member.
- Choose only the modules that person should use.
- Save and confirm the account appears with the correct status.

MEMBER	ROLE / DESIGNATION	PERMISSIONS	STATUS	ADDED	ACTIVE
Hemantha Kumara M hemant@gmail.com	Operations	Driver Management	Active	09 Jul 2026	☒
ravi ravi2@gmail.com	finance	Trip Monitoring, Driver Management	Active	21 May 2026	☒
ROHIT THAKUR rkug@gmail.com	finance	Trip Monitoring, Driver Management, +2 more	Active	18 May 2026	☒

User Management: admin access and per-module permissions.

20

CORE AREAS

Settings

Configure platform rules

Settings and Platform Settings are for rules that affect trips, billing, cancellation policies, charges, commissions, fare rules, and related platform behavior.

- Open **Settings** or **Platform Settings**.
- Review the current rule before changing it.
- Save changes only after confirming the business impact.

The screenshot shows the Travellink Super Dashboard with the Settings section selected. The Settings page is titled "Settings" and "Configure platform-level controls". On the left sidebar, the "Settings" option is highlighted. The main content area shows the "Fare Setting" section, which includes a "New Rule" button and a table of fare rules.

KM RANGE	VEHICLE	ESCORT	AC	FARE (INR)	ACTION
0 - 20 km	SUV	No	Yes	Rs 500	Edit Delete
0 - 20 km	SUV	Yes	Yes	Rs 600	Edit Delete
20 - 100 km	SUV	No	Yes	Rs 600	Edit Delete
21 - 30 km	SUV	Yes	Yes	Rs 650	Edit Delete

Settings: fare rules, taxes, commissions and cancellation policies.

Change carefully Platform settings can affect many vendors, drivers, and future trips. Confirm before saving.

REFERENCE

Status table

STATUS	WHERE YOU MAY SEE IT	MEANING	WHAT TO DO
PENDING	Enquiries, onboarding, tickets, cancellations, invoices.	Waiting for review, assignment, payment, or action.	Open the item and complete the next review step.
PUBLISHED	Website booking enquiry.	The trip is available for driver assignment.	Assign a driver or monitor driver interest.
DRIVER ASSIGNED	Booking enquiry and trips.	A driver has been linked to the trip.	Watch for the trip to become active or completed.
COMPLETED	Trips, reports, finance.	The journey is finished and counts in completed totals.	Review settlement, invoice, or report details if needed.
AVAILABLE	Drivers and Live Map.	The driver is active and can take work.	Use for assignment decisions.
ON TRIP	Drivers and Live Map.	The driver is currently serving a trip.	Monitor but avoid assigning new work unless the workflow allows it.
REJECTED	Vendor or driver review.	The application or document was not accepted.	Read reviewer notes and ask for corrected details if needed.

STATUS	WHERE YOU MAY SEE IT	MEANING	WHAT TO DO
OFFLINE	Drivers.	The driver is unavailable or not verified/active.	Do not assign unless status changes.

REFERENCE

App messages you might see

MESSAGE	MEANING	NEXT STEP
UPDATED SUCCESSFULLY	Your change was saved.	Check the row or detail page to confirm it looks right.
DASHBOARD LOAD ISSUE	The dashboard could not load fresh data.	Tap Refresh or reload the page.
BOOKING NOT FOUND	The selected booking could not be opened.	Go back to the list and search again.
YOU ALREADY HAVE A PENDING REQUEST	A duplicate driver request or interest already exists.	Wait for the current request to finish or cancel it if appropriate.
FAILED TO LOAD DASHBOARD DATA	The app could not reach one or more admin services.	Refresh. If it continues, share the time and screen with the technical team.

REFERENCE

Why do my dashboard numbers change after Refresh?

The Dashboard uses live platform data. Refresh pulls the newest wallet, trip, ticket, and leaderboard information.

What is the difference between Dashboard and Finance Dashboard?

Dashboard gives a broad operating snapshot. Finance Dashboard focuses more deeply on booking and money details.

When should I use Live Map?

Use Live Map when you need real-time driver status or location context for active operations.

Why can't I see Settings?

Settings are admin-only. If you are a superadmin team member, a full super admin must grant access.

Which trips count in reports?

Reports usually focus on completed trips in the selected period, so open or cancelled trips may not be counted the same way.

PROBLEM	TRY THIS FIRST	IF IT STILL HAPPENS
Dashboard is blank or stale.	Tap Refresh, then reload the page.	Check whether the backend service is available.
A vendor or driver is missing.	Clear filters and check the correct tab.	Search by phone, name, or ID if available.
Cannot approve an item.	Check required documents and missing fields.	Confirm your account has permission for that module.
Live Map status looks wrong.	Refresh and check the driver detail page.	Ask the operations or technical team to confirm location feed status.
Invoice status cannot be changed.	Check whether it is already Paid or Voided.	Use finance review workflow before requesting a backend correction.
An SOS item is unclear.	Open the full alert and check driver, trip, time, and location.	Escalate immediately using the operational contact path.

REFERENCE

Glossary

Vendor Spend

Money charged to vendors for completed trips and related charges.

Driver Earned

Driver earnings from completed trips and eligible cancellation payments.

Hold Amount

Money currently reserved for in-progress or pending settlement trips.

Published

A booking that is ready for driver assignment.

Driver Assigned

A booking with a driver already linked.

Low Balance Vendor

A vendor whose wallet balance is below the dashboard threshold.

Special Enquiry

A customer request that needs custom handling.

SOS

An urgent safety or emergency alert requiring fast response.

Platform Settings

Rules that affect fares, charges, commissions, cancellation policies, and other platform behavior.

Disclaimer: This manual is a user guide for SK Voyages Super Admin Dashboard version 1.0. Screens, permissions, labels, and workflows may change as the product is updated.
