START HERE

Welcome

Travellink Supervisor helps you manage trips from your phone. You can create a booking, publish it to drivers, accept driver requests, watch active trips on a map, and check completed trip history later.

Use this manual with your phone beside you

Each screen in this guide has a short note and a screenshot taken from the app, so you can match what you read against what you see on your phone.

What the app does

Book trips

Create instant or scheduled trips with pickup, drop, stops, vehicle type, passenger count, AC choice, escort, toll, and notes.

Find drivers

Publish trips so nearby drivers can accept or request the work. You can accept or reject driver interest when needed.

Track and review

See live trip movement, call drivers, follow trip timelines, and review completed trips by date.

Plain meaning: Think of the app as your trip desk in your pocket.

!

If login fails: Check email spelling, password, and mobile network. If it still fails, contact support.

05

BASICS

Getting around

Use the bottom tabs

The main app uses a bottom navigation bar. It stays near the bottom of the screen so you can switch between daily work areas quickly.

- **Home:** Today's summary and the Create New Trip button.
- **Trips:** All trip lists, grouped by status.
- **Alert:** Notifications and driver messages.
- **Profile:** Your account, stats, history, help, and logout.

06

BASICS

Reading the screens

Orange buttons

Orange usually means the main action, such as creating, publishing, applying a date, or confirming.

Dark buttons

Dark areas often show active tabs, important trip status, or profile headers.

Red messages

Red means something needs attention, such as a missing field, failed login, or cancellation warning.

VISUAL	MEANING	EXAMPLE
 ORANGE	Main action or highlighted choice.	Create New Trip, Publish, Apply
 GREEN	Success, driver found, ready, or completed.	Driver Found, Ready to Publish
 RED	Problem, failed action, expired, or cancellation.	Could not cancel, Expired Trips
 GREY	Neutral, empty, disabled, or not selected.	No trips found, inactive filter

CORE AREAS

Home dashboard

Start your day here

Home shows your name, vendor, today's trip count, today's spend, and the first upcoming trip. It is also where you begin a new booking.

- Tap the bell icon to open Notifications.
- Tap your avatar to open Profile.
- Tap **Create New Trip** to book a ride.
- Tap **View All** to open the Upcoming tab in My Trips.

Create a trip

Enter the trip details

The Create New Trip sheet is for building a booking. It calculates the route distance and fare after you select the locations, vehicle category, and AC option.

- 1 Tap **Create New Trip** on Home.
- 2 Select the company if the list is shown.
- 3 Choose pickup and drop from the address suggestions. Add stops if needed.
- 4 Choose **Instant** or **Scheduled**. For scheduled trips, choose a future date and time.
- 5 Choose vehicle category: Sedan, SUV, LMV, or HMV. Pick the subtype if shown.
- 6 Enter passenger count. Add escort, toll, and notes only when needed.
- 7 Review the wallet deduction and tap **Publish** or **Save**.

The screenshot shows the 'Request Trip' form in the Shivanshi app. The form is titled 'Request Trip' with a close button (X). It contains several sections: 'COMPANY NAME' with a dropdown menu showing 'supercx'; 'VEHICLE CATEGORY' with four buttons: 'Sedan', 'SUV' (highlighted in yellow), 'LMV', and 'HMV'; 'SUV OPTION' with two buttons: 'Ertiga' and 'Innova' (highlighted in yellow); and 'TRIP TYPE' with two buttons: 'Scheduled' (with a calendar icon and text 'Pick a date & time') and 'Instant' (with a lightning bolt icon, text 'Book right now', and a checkmark). At the bottom, there are tabs for 'ROUTE' and 'DETAILS', with 'DETAILS' being the active tab.

Cancel Publish

The Request Trip sheet from top to bottom: trip details, then vehicle options, then fare and Publish.

Save or Publish? A scheduled trip more than 24 hours away is saved first. Trips within the publish window can be published to drivers.

Address suggestions matter: If the app asks you to select pickup, drop, or stop from suggestions, tap the suggested place instead of only typing text.

CORE AREAS

Finding a driver

Watch the search

For instant trips, the app opens a map and searches nearby drivers. The bottom sheet shows the pickup, drop, vehicle, passenger count, fare, and a countdown timer.

- Tap **Cancel request** if you do not want to continue searching.
- If a driver accepts, you will see **Driver Found!** with vehicle details.
- Tap **Call driver** if you need to speak to the assigned driver.
- If no driver is found, tap **Try Again** or close the screen.

10

CORE AREAS

My Trips

Use tabs to find the right trip

My Trips groups trips into clear tabs. Use the search icon for address search and the filter icon to filter by company.

- **Active:** Trips that are ongoing now.
- **Requested:** Published trips waiting for drivers.
- **Driver Requests:** Trips where drivers have shown interest.
- **Upcoming:** Driver assigned and coming up.
- **Scheduled:** Saved or future trips.
- **Cancelled:** Cancelled trips and review details.

11

CORE AREAS

Driver requests

Accept or reject driver interest

When a driver requests a published trip, it appears in the Driver Requests tab. Review the driver and vehicle details before choosing.

- 1 Open **Trips**.
- 2 Tap **Driver Requests**.
- 3 Review the driver name, phone, vehicle plate, and vehicle model.
- 4 Tap **Accept** to assign that driver, or **Reject** to keep waiting.

OK

After accepting: The trip moves to Upcoming if it is future, or Active when the ride is already ongoing.

12

CORE AREAS

Live tracking

Follow an active trip

The Track Trip screen shows the map, the vehicle location, route target, ETA, distance, assigned driver, vehicle number, and timeline updates.

- Tap **Track Live** from an active trip card.
- Tap the location button to focus the map on the vehicle.
- Tap refresh to reload the latest location.
- Tap the phone button to call the driver.
- Read the timeline to see stages like Driver Assigned, Ride Started, Passenger Onboard, and Trip Completed.

13

CORE AREAS

Cancellations

Cancel carefully

Depending on the trip stage, cancellation may simply stop publishing or may submit a cancellation request for review.

- On Requested trips, tap cancel publishing to remove the request from drivers.
- On Upcoming trips, use the cancellation option and enter the reason when asked.
- For assigned drivers, use Cancel & Republish when you need to unassign the current driver and publish again.

Before cancelling: Check the pickup time and driver status. Some cancellations may need review before wallet or billing adjustments are final.

Read driver and trip alerts

The Alert screen lists messages from drivers and system trip updates. Unread notifications have an orange marker and count.

- Tap the bell on Home or the Alert tab.
- Look for unread messages at the top.
- Pull down to refresh the list.

15

CORE AREAS

Profile

Check your account

Profile shows your name, role, contact details, location, joined date, completed trips, active trips, assigned companies, Trip History, Help & Support, and Log out.

- Tap **Completed Trips** to open Trip History.
- Tap **Active Trips** to open the Active tab.
- Tap **Help & Support** for phone, WhatsApp, and email support.
- Tap **Log out** only when you are finished using the app.

16

CORE AREAS

Trip history

Review completed work

Trip History shows completed trips and spend totals. You can filter by All, Today, Yesterday, Last 7 Days, or Custom date range.

- Tap Profile, then Open Trip History.
- Choose a date filter at the top.
- Tap Search trips to search by driver, vehicle plate, model, or place.
- Use Instant/Scheduled chips to narrow the list.
- Pull down to refresh or scroll down to load more.
